This becomes particularly problematic for students or employees when:

In order to facilitate an environment that is conducive to learning and is free from all types of harassment. AU has zero tolerance for any form of harassment that interferes with the work performance of a student or an employee. In order to prevent sexual and all other types of harassment on its campus AU has a policy, whose aim is to make the campus free from all sorts of harassment. This policy is being followed in letter and spirit and since 2011 AU has established a "Harassment Monitoring Cell". If anyone (be it a student or employee) in the AU community feels that they are being harassed, they can either approach their class advisor, department Chair/Dean or send an email to harassment.cell@mail.au.edu.pk All cases are handled and resolved in a professional manner so that the confidentiality of all parties is maintained.

Course Registration Policy

Students are required to complete the credit hours for each discipline as prescribed by the department (approved by Pakistan Engineering Council (PEC)/Higher Education Commission (HEC) or any other regulating body for each program for bachelors degree), by taking courses from the list maintained by the department. Students must register for courses offered to them in each of the regular semesters i.e. Fall and Spring, provided they meet the pre-requisite requirement mentioned in the prospectus for each Intake/Program. If summer semester is being offered, student may take up to maximum of three courses. No new course can be taken in summers unless specifically permitted. Student has to follow the registration process as intimated to them by the Program Coordinator and the Registrar's Office. Registration is not complete unless all dues are cleared.

1. Courses are classified as core courses, elective courses and optional courses. A student has to pass all core courses to become eligible for the award of degree. Elective courses have to be chosen from the prescribed list. Optional courses may be taken as per liking of student to improve his / her knowledge and skills.

2. **. Repeating of Courses.** A student may repeat a course under two circumstances i.e. to clear an F, I or W Grade or to improve his / her CGPA.

(a) All core courses with F, W or I grades are to be cleared before completion of degree requirement. F grade in an elective course may be substituted with a grade in another elective course with the permission of Chair Department.

(b) A student is not allowed to accumulate more than six F grades at a time. He has to clear at least four F grades before taking any new course. On accumulations of seventh F grade, the student will be dismissed from the program.

(c) "I" grade shall be awarded, when a student misses the final examination due to an unavoidable reason, as judged by the Chair Department and approved by the VC. In such cases, the internal grades will stand intact and the final examination will have to be re-taken whenever the course(s) are offered. To avail this concession, the student must apply within one week of missing the exam; otherwise an „F" grade shall be awarded.

(d) A student can repeat courses, with grades lower than B minus, to improve his / her CGPA.

(e) A student shall not be allowed to improve his/her CGPA after the completion of degree.

3. **. Dropping a Course.** As per policy, dropping courses is not allowed to students in their first two semesters. However, a student could be barred from taking particular courses by the Class Advisor/Chair Department because of pre-requisite rules right after the 1st semester. Such cases shall be treated as if they have „dropped" a course. The Problem-free students may drop a maximum of two courses from the 3rd semester onwards based upon the recommendation of the Student Advisor subject to approval of the Chair Department. For a student to be able to withdraw from a course, he/she will be required to produce evidence of a genuine reason showing the circumstances beyond his/her control. In such case, the student will be awarded „W" grade instead of „F". „Not attending classes" is not equivalent to „dropping a course". To drop a course, the requisite form duly completed needs to be deposited with the Program Coordinator. If a course is not dropped formally the student shall earn an „F" grade. Course-drop will be subject to various penalties as per the Air University policies.

4. **Auditing of a Course.** Auditing a course implies that the student is allowed to attend classes and attempt assignments, but will not be awarded a grade. Taking the mid-term and final examination is optional. Student must pay fees and register for auditing a course. In addition:-

- (a) The courses should be registered as regular courses. Deadline for dropping/adding a course or courses, fee payment and refund etc. is the same as for regular courses.
- (b) The audited courses may exceed the allowed workload for a semester
- (c) Students may retake the course as a regular course after auditing it in a previous semester

5. **Alternative for Islamic Studies.** Non-Muslim students are exempted from taking Islamic Studies. An elective course of "Ethics" will be offered to such students.

Final Year Projects (FYPs)

6. In the final year of the studies, each undergraduate student is to complete six credit hours of independent or group project / study offered by concerned department. Each department offering a bachelor's program is responsible for conducting FYPs according to their own procedures formulated by Departmental Committees. The distribution of six credit hours in 7th and 8th semester shall also be as per departmental procedure.

7. Evaluations and grading of FYPs shall be done at the department at the end of the "registered semester" for Semesters No 6 and 7, while for the Final Semester, the results may be submitted by 30th June, or within two weeks after the end of the Final Exams. Obtaining passing grade in FYP is a mandatory requirement for award of degree.

Semester Leave Policy

A student may take a maximum of three semesters leave during the program with the approval of Chair Department. A student has to pay full fee for that semester. Student cannot avail more than two semesters leave at one time. The application of Semester Leave / Freeze must reach Registrar's Office within seven weeks from commencement of the semester. Leave after start of semester for which the fee has been paid shall be entitled to carry forward as per AU policy. If semester leave (medical leave for serious sickness) is taken during the first semester the student would then have to rejoin a year or 6 months later with the new class, as the case may be. A rejoining of program fee will be charged.
